Fun Spot America to Reveal **ARIE FORCE ONE** Roller Coaster at IAAPA Expo

HUGE \$13 Million Dollar RMC Roller Coaster, the Largest Single Investment on any Ride in Fun Spot History to Debut at Fun Spot Atlanta

ORLANDO, Florida – November 16, 2021 - Fun Spot America Theme Parks, Orlando's only Family-Owned theme park is adding HUGE excitement to its Atlanta, Georgia location with the addition of an action-packed custom Rocky Mountain Construction steel roller coaster, **Arie Force One**. Riders will soar over 3,400 feet of track, towering 15 stories and flying at speeds up to 64 miles-per-hour. The new coaster will be located near the main gate to the park where guests will have spectacular views of the ride featuring the largest Zero-G Stall in America. "**Arie Force One** is a tribute to my father and his passion for flying. We will have you believing you're traveling into space with all of the airtime moments and weightlessness this RMC coaster provides," said Fun Spot America CEO and Owner, John Arie Jr.

"The addition of **Arie Force One** is a HUGE milestone for our company and the first of many new Marque rides and attractions yet to come to the Fayetteville, GA park. As a one-of-a-kind roller coaster, custom designed to the topography and layout of Fun Spot Atlanta, no other RMC roller coaster has this combination of elements. The Raven Truss Dive and the Zero-G Roll over the arcade are the first-of-their-kind in the world. In both ride elements the train travels through the center of a uniquely designed truss bridge while twisting at Zero-G," said John Arie Jr.

Key Features of **Arie Force One** include:

- Themed queue lines based on John Arie Sr's boyhood passion for flight;
- Two state of the art 20 passenger steering axle trains that just scream high speed thrills;
- 3,400 feet of RMC's award-winning patented steel lbox track;
- A HUGE tension-building ascent up a towering, 154-foot lift hill;
- Reaching incredible speeds up to 64 mph;
- Intense ride elements including a steep, 83-degree first drop and the largest Zero-G Stall in America;
- Four exciting inversions including a first ever Raven Truss Dive, two Zero-G Rolls and a 180-degree stall.

To set up personal interviews with John Arie, Jr or other Fun Spot America representatives during the busy IAAPA week, please email John Chidester at fsapr@fun-spot.com or call, (812) 319-2055.

Media are invited to see the Fun Spot Atlanta press conference at the Orange Country Convention Center in the North-South Building on Tuesday, November 16th at 1:00 p.m. in booth 3040. Followed by the unveiling of the **Arie Force One** train car at 2:00 p.m. in the RMC Booth 4415. To learn more and register, email PressOffice@IAAPA.org. All attending media require a registration badge, to be picked up from the IAAPA Expo Press Office, located in room S230A. The Press Office opens at 9 a.m. For more information on Fun Spot America, visit Fun-Spot.com.
